SEARCH ENGINE PERFORMANCE

SEARCH ENGINE PERFORMANCE

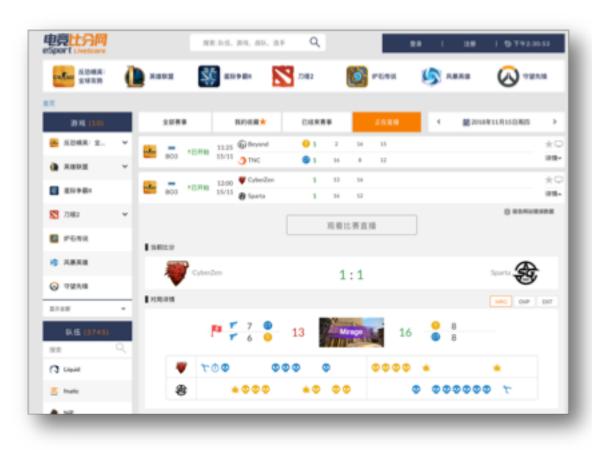

results with keywords such as <u>esport. csao. dota</u>, <u>esport score</u> among many search engines. The newly users coming through search engine are stably about 5,000+/day.

With few years of operational experience, eSportLiveScore has already got to the top tier of eSports live score service. English, Chinese and Russian are top three language destinations from eSportLiveScore global business and accumulated outstanding performance.

CHINESE AND CHINA MARKET

Esportlivescore.cn IN CHINA

eSportLiveScore launched .cn service at the world's largest e-sports region -"China" in 2018. After the launch till now, .cn sub-station has accumulated more than 10,000 unique users per day extremely with nearly 60,000 online customers simultaneously during Asian Games Event Season. We even launched "king glory" data service with millions of user base and the performance was really good. After laying the foundation with refined operation to the regional market, Russian market is currently in our plan, and we believe esportlivescore.ru would achieve better results in 2019 especially we target hottest game like Word of Tank in Russia.
